TAKEBACK CONTROL

WHO CONTROLS U.S.
CRITICAL INFRASTRUCTURE?

U.S Critical Infrastructure is not
in the hands of the United States.

It is more frightening than you know.

NATIONAL SECURITY THREAT

HOW RUSSIA, CHINA AND ISRAEL COOPERATE AGAINST AMERICAN INTERESTS

The vast majority of Israeli cyber experts are Ukrainian and Russian born or recent immigrants.

Elements of Israeli intelligence have warned that Israel is heavily penetrated by Russian GRU and SVU assets.

Key U.S. technology and cyber is handled by Israeli coders and companies including all Microsoft products including Windows & the Azure Cloud.

Russia has gained access to all the key code of Microsoft products via their intelligence penetration of Israel.

Israel has a long history of stealing United States technology and on-selling to enemies of the United States.

Israel has a long history of co-operation with Russia, dating back to 1917 and the Stalinist Cold War era.

Israeli & Russian penetration of US critical infrastructure has come through Israel's Talpiot Program and Unit 8200 military intelligence units.
